

It's cold outside

It's cold outside, bout a hundred and three
Been spittin ice since my baby left me
She took our dog and it froze my heart
Been two whole days since we been apart

Chorus

But she's leavin she's leavin, she's gone
Oh baby how can I carry on
This shattered heart is broke in two
It's cold outside since you said we're through
This shattered heart is broke in two
It's cold outside since you said we're through

I walk around with a frozen face
This plastic smile I can't erase
Ain't told my friends,
Though I'm sure they know.
You do the deed you got seeds to sow.

Chorus
