

Just Dreaming

She called from across the stream
What's your name, will you play with me?
I just stood there mesmerized.
A shy little boy, at the age of nine.

That's the way it began.
Soon we were holding hands
And dreaming just dreaming
Now our hair, it's turning grey.
How I miss those simple days.
Dreaming just dreaming.

The actors, yeh they're still the same.
But now, we're playing grown up games.
I still hold you close at night.
You listen to my dreams of flight.
My best friend through thick and thin.
Your lover's touch, it never ends.
And dream we do again just dreaming

I love the way your body moves
As you look back and bend
You now just what to do
To put my head in a spin.
Give it all back to me
As we chase our dreams

What I need, what I need, what I need
Is your sweat dripping in my eyes.

What I need is your laugh
That I can't describe
What I need is your smile to never fade.
What I need is you here til my dying day.

Find me, I'm hiding somewhere close.
You need to find me.
Look in between the sheets, find me,
I'm never out of reach.
Find me, your such a little tease
Find me, I'm just a kiss away.
