

She's all I see

I'm squeezing out a song,
Been thinkin' all day long
Bout all the crazy things we do,
Me and you.

Chorus

Misses mess and me we can't help but be
Clinging to each others glue.
Yeh she's sweet and sticky too.
With just one laugh she soothes me
With just one brow she rules me.
She occupies my mind.,
My love for her is blind.
Everywhere I look
(she's all I see x 7) yeh misses mess and me

Been laughing bout that time,
You packed those things of mine
I was staring down the stairs like a fool
